

Jumbo 3000

10 Clamp Perfect Binder

OPTIONAL ACCESSORIES

- Side gluing equipment for hot / cold glue
- Waste exhaust system with blower
- 10 liters pre melter
- Fume exhaust system
- Belt conveyor delivery
- Cold Glue Unit

SALIENT FEATURES

- Ten clamping station
- Variable speed main drive
- Individual milling & roughening cutters
- Auto timer start hot glue system
- 2+2 roller hot glue system
- Book head / tail end glue cut-off system
- Built-in "P-tech" side glue roller system
- Automatic pile cover feeder with "S-type" 4 line creasing
- No book –No cover ,No cover –No book control
- Pre pasting station & moving type nipping station
- Micro adjustment systems for accurate cover registration
- Incorporated safety systems confirming to CE standards

Max cover size	430x645mm	430x645mm	430x645mm
Min cover size	125x200mm	125x200mm	125x200mm
Power supply	410/440/3Ø	410/440/3Ø	410/440/3Ø
Motors	6.0kw	6.5kw	7.5kw
Heater	3k w	3kw	3kw

<p>MILLING & ROUGHENING STATION</p>  <p>Uniform back bone preparation is assured by the Milling and Roughening cutters, thereby increasing the life of the book. Depth of cut-off is adjustable up to 5mm .This station can be disengaged when using the machines to cover sewn books . strips from the milling station are removed into a waste collection bag.</p>	<p>HOT MELT GLUE STATION</p>  <p>Hot melt glue unit is equipped with an applicator and a reverse spinner roller to control even glue film thickness on the spine of the book with adjustable glue film thickness. A built in “P Tech” side gluing system ,glue tank with built in heaters and an automatic thermostat to control the glue temperature.</p>	<p>PILE COVER FEEDER STATION</p>  <p>The covers are loaded on the top of the automatic pile cover feeding station. The bottom most cover is separated from the pile by four suckers and transferred to the feed board for pre-pasting. A built in adjustable “S-Type” four line scoring device in incorporated. The cover feeder and the nipping station travel with the book until the cover is accurately aligned & pressed firmly against the spine & sides to give sharp square book backs</p>
